Office: (317) 232-2701
Facsimile: (317) 232-6758

April 12, 2006

To: All Communications Service Providers not defined as Incumbent Local Exchange Carriers
or Competitive Local Exchange Carriers

The Indiana Utility Regulatory Commission (IURC) conducts periodic surveys to provide the Regulatory Flexibility Committee of the Indiana General Assembly with timely information on the effects of competition and technological change on universal service and on the pricing of telecommunications services offered in Indiana, as well as the status of competition and technological change in the provision of video and other IP-enabled service to Indiana customers (see IC 8-1-2.6-4).

Under authority granted to the IURC by House Enrolled Act 1279 and Governor Daniels' signature of the bill into law, effective July 1, 2009, all Communications Service Providers will be required to obtain a Certificate of Territorial Authority (CTA). (see IC 8-1-32.5) As part of the CTA process the IURC may request any information necessary to prepare the report to the Regulatory Flexibility Committee of the General Assembly. While your company may not currently hold a CTA, we are requesting the information in the survey be provided on a voluntary basis. If your company chooses not to honor this voluntary request and complete the survey, please indicate such in a letter to the IURC Telecommunications Division with copies to the Indiana state legislators listed below.

All questions should be directed to either Karl Henry at 317-232-5585 (khenry@urc.in.gov) or Joel Fishkin at 317-233-3464 (JFishkin@urc.in.gov). The IURC Survey form and/or electronic equivalent is to be completed and returned to the IURC Telecommunications Division **no later than May 12, 2006.**

Thank you for your cooperation and assistance.

A handwritten signature in black ink, appearing to read "David Lott Hardy".
